

Danish Export Association nominates Hexa-Cover A/S "Exporter of the Year 2015"

With great pleasure and pride we can announce that the Danish Export Association has nominated Hexa-Cover A/S "Exporter of the Year 2015".

"We take the nomination as a recognition of the dedicated work we have been doing over the past several years, the way we do it, and the results we have achieved. In fact our export is close to 100%.

As we see it, our export success is built on a solid strategy, dedicated daily efforts of the Hexa-Cover team, and our partner company Kellpo A/S, and not least our partners, agents and distributors in approximately 20 countries around the world.

Further, our Hexa-Cover® Floating Cover is a unique quality product. Unique in it's function and effect but also because we are basically turning waste (recycled PP) into a solution providing a significant impact to the environment, like reduction of emissions, odor, algae growth, emission, heat loss, etc.

We have to see if we win, but honestly, the nomination is just as important to us"

Denmark, November 20th 2015
Soren Madsen - Hexa-Cover A / S

About the award:

First quarter every year, Danish Export Association awards a member company "Danish Exporter of the Year". The award honor leading member companies and focus on the companies providing an extraordinary good performance in the export area.

The award will also help to highlight what the winning companies are doing right, thus increasing the sharing of knowledge of 'Best Practice' in the association.
