

EFFECTIVE COVERAGE FOR ALL FLUIDS

PROVEN TECHNOLOGY SINCE 2004

MANUFACTURED IN NORTH AMERICA, AUSTRALIA, EU

DLG APPROVED 2026 (TALUFT)

HEXA-COVER
HEXA-COVER R114
✓ Reduction of Ammonia Emission
✓ Reduction of Odour Emission
DLG Certificate 7593

Certified for use with
potable water according
(AS/NZS 4020:2018)

Hexa-Cover

www.hexa-cover.com • info@hexa-cover.com

The unique and patented Hexa-Cover® is perfect on almost any form of fluid surface and is the ideal solution for controlling such things as:

- Odor
- Heat loss
- Evaporation
- Emission
- UV effect
- Organic growth

Further, the Hexa-Cover® deters unwanted water-fowls from landing on covered waters (what significantly reduces sedimentation, risk of E. coli).

Since its launch in 2004, Hexa-Cover® has been chosen for a vast number of installations globally, making the Hexa-Cover® the market leading solution.

Today Hexa-Cover® is used on all forms of basins, lagoons, reservoirs, containers, ponds and tanks.

Hexa-Cover®

- *Is the solid, robust and long lasting solution*
- *Has no weak spots, no blow- / injection holes*
- *Has no hollow areas (that eventually will break)*
- *Withstands rain, snow and frost*
- *Has no openings (that eventually will clog due to sand, debris, algae etc.)*

Hexa-Cover® has no inside water as this *creates risks for cracks meaning the inside water will escape the elements and enter into the covered fluid, this can potentially pollute / change the balance of the covered fluid.*

The applications are many and include e.g.:

- Wastewater
- Raw water
- Potable / drinking water
- Cooling- and processwater
- Recovery water
- Irrigation water
- Tailings Ponds
- ILS, PLS, Refino
- Leachate
- Decoction
- Chemicals
- Spill-over tanks
- Emergency tanks
- Frac Water tanks
- Boil Feed Water
- Storage tanks at i.e. Biogas Plants
- Manure and slurry tanks, lagoons etc.

Hexa-Cover® ensures;

- Up to 99% coverage of the surface area
- Up to 95% reduction of evaporation
- Up to 95% reduction of emission
- Up to 95% reduction of odor
- Noticeable reduction in organic growth
- Noticeable reduction in heat loss (heatflux reduced by 74%)

Hexa-Cover® is manufactured of **recycled** Polypropylene.

Hexa-Cover® is solid and robust and as such offers a long lifespan free of maintenance, service and repair.

Hexa-Cover® - Features & Benefits:

- Ease of installation
- Installation in both full and empty tank
- Automatic distribution on the fluid surface
- Automatic adaption to changes in the level
- Fits to all shapes and geometries
- Easy adaption to changes in surface area
- Unlimited access to the liquid
- No running cost
- No repair cost
- No maintenance cost
- Needs no supervision
- Unaffected by rain, snow and frost
- Allows use of aeration
- Favourable price
- 10 years warranty
- 25 years expected lifetime

Dimensions:

Hexa-Cover® R114:

Diagonal measure	22,8 cm	8.98 in
Height	6,0 cm	2.36 in
Weight	243 g	0.535 lbs
Weight per m2	6,8 kg	15.00 lbs
Pcs	28 / m2	2.6 / ft²

M2 per bag	42 m2	452 ft²
Weight per bag	285 kg	628 lbs

Big Bags: 1,3 x 1,3 x 2,5 m 4.3 x 4.3 x 8.2 ft)

Hexa-Cover® R90:

Diagonal measure	18,0 cm	7.09 in
Height	5,0 cm	1.97 in
Weight per m2	5,2 kg	11.4 lbs
Pcs	43 / m2	4 / ft²

M2 per bag	50 m2	538 ft²
Weight per bag	265 kg	575 lbs

Big Bags: 1,0 x 1,3 x 2,5 m 3.3 x 4.3 x 8.2 ft)

Hexa-Cover® API and Oil & Gas - designed for API and Oil & Gas applications e.g.

- Hydrocarbon contaminated wastewater basins
- Conventional Crude Oil and emulsion storage
- Frac Oil and Frac water storage
- Gasoline, Diesel and other Refined Products
- Thermal Heavy Oil
- SAGD Dilbit Sales Tanks
- Sour Sand Slurry Tanks
- Process Water Ponds
- Purified Tailings Ponds
- API Separator
- Boil Feed Water

Water scarcity - a growing problem !

Hexa-Cover® helps Australia reduce evaporation by 73%.

Additionally, Hexa-Cover® eliminates algae growth and prevents unwanted birds and ducks from landing on the covered water.

All to the benefit of the environment and human beings.
